The not-to-be-missed event, *Airlines-Manager: Tycoon!*

The International Paris Air Show will be the opportunity to present for the first time a brand new mode of the game named ***Airlines-Manager: Tycoon!***

After months of development, we are ready to unveil this evolution of the original game which offers a totally new experience while keeping what made the success of Airlines-Manager 2. This new game will highlight the speed aspect through shorter and more intense game sessions. It will be available via the URL and Application that you already know.

The most experienced players as well as the new CEOs will be delighted to test their capacities to develop their airline companies faster while maintaining the necessary strategy leading to success and the usual game realism. We have listened to our community and decided to develop what have been waited by many of you: a speed version of Airlines-Manager!

We are waiting for you to discover this all new game at our Airlines-Manager stand from **23 to 25 June 2017!**
